Date of Birth : 02/10/2006

TECHNICAL SKILLS

Languages :

Python, TypeScript, JavaScript, Java, SQL,
HTML / CSS

Frameworks / Tools :

Docker, Git / GitHub Actions, React,
Ollama (LLM), PyQt6

Concepts :

MVC Architecture, LLM / REST API
Integration, Relational Databases, CI/CD
Pipelines

LANGUAGES

French	Native
English	B2
German	A2

CERTIFICATIONS & OTHER

- Driving licence (B)
- PSC1 First Aid Certificate
- BAFA (Youth Activity Leader & Group Mentoring)

PROFILE

3rd-year Computer Science student at IUT de Calais (Associate Degree / DUT validated, Certified Technician level). Specialized in application development (Python, TypeScript, SQL, Local LLM integration). Seeking a 14-to-16 week end-of-studies internship to engineer reliable, production-ready software solutions in an agile environment.

EDUCATION

IUT de Calais

2024 – Present

Bachelor of Science in Computer Science (BUT) – 3rd Year

- Technician Degree Validated (DUT in Computer Science / 120 ECTS credits)
- Track: Application Design, Development and Validation
- Key Projects: NaturSQL (AI Text-to-SQL), PyQt6 product catalog, Store map routing (graph algorithms)

Lycée Albert Châtelet

2021 – 2024

General Baccalaureate

- Majors: Mathematics, Computer Science (NSI), Engineering Science (SI)
- Options: Advanced Mathematics & Cinema-Audiovisual

PROJECTS & OPEN SOURCE (GITHUB)

NaturSQL (Smart AI App)

Python / LLM / Docker

Web application translating natural language into SQL queries using a local LLM (Ollama), Docker, and Python. Top contributor on the project. → [Repository](#)

Project 206 SaaS (Private repo)

Fullstack

Modular SaaS platform designed for service management and workflow automation.

Heat Trainer

TypeScript

Interactive workout and athletic training tracking application built with TypeScript. → [Repository](#)

PROFESSIONAL EXPERIENCE

Software Developer Intern (BUT 2)

April 27 – June 20, 2026 (8 wks)

[To specify: Company / Organization]

- Software design, feature implementation and debugging
- Applied software engineering best practices within a technical team

Student Event Coordination

2024

Student Association

- Logistics planning, crowd management, and attendee welcoming
